For the distances to the loft, the 5% rule can be applied.

The 5% rule cannot be applied for the minimum total of kilometers.

2. Calculation system

According to the FCI rules the calculation system is same of others FCI events.

2.1 Speed, Middle Distance, Long Distance, Youngster, Yearling and All round and FCI Grand Prix categories:

$$\frac{\text{Position in the result} \times 1000}{\text{Number of basketed pigeons (max. 5000)}}^1$$

2.2. Marathon and Super Marathon categories:

$$\frac{\text{Position in the result} \times 1000}{\text{Number of basketed pigeons}}^2$$

2.3. In the FCI Grand Prix category one of the four races necessary to achieve the result in this category must be a final FCI race.

The pigeon which has got the lowest co-efficient is the first for the general prize list. The coefficient will be calculated to three digits after decimal point.

PARTICIPATION

- each affiliated federation can participate, and in the case of the FCI Grand Prix category all OLRs participating in the Grand Prix in 2025;
- only pigeons with official FCI ring can participate in this competition;
- every affiliated federation can decide based on the requirements in which categories to participate (except for the FCI Grand Prix category);
- one pigeon can only participate in one category;
- The deadline to submit the results is **5 January 2026**. The results that arrive late or that are not correct WILL NOT BE ACCEPTED. After 5 January 2026, no more corrections will be accepted.

¹ Ex. Mr X in the race from Paris Km 350 with 1500 basked pigeons was 13th with his pigeon ($13 \times 1000 / 1500 = 10$); Ex. Mr Y in the race from Milan Km 400 with 6000 basked pigeons was 10th with his pigeon ($10 \times 1000 / 5000 = 2,000$);

² Ex. Mr Z in the race from Lisbon Km 800 with 7000 basked pigeons was 20th with his pigeon ($20 \times 1000 / 7000 = 2,857$).
